This series of books has been designed to stimulate talking and language development in young children.

Many of the pictures show things which the child will already know but several of the things he may not know. These will all provide topics for discussion and the opportunity for the child to learn something new.

If an adult looks at the books with the child and talks about the pictures, the value of the books will be increased. However, each book in the series is a delightful and interesting picture book in itself for every child.

The numbers book introduces children to numbers up to ten and then gives experience of counting, sorting and matching.

Acknowledgments

The publishers wish to thank the following for their helpful comments: Mrs Phebean Ogundipe; Mrs Dorothy Bracey; Miss Inonge Mbikusita-Lewaneka; and Alan Hutchison Library for the use of photographic references.

The illustration at the top of page 27 is by Lynn N Grundy.

Cover and endpapers are by Hurlston Design.

Photographic reference for the picture on page 41 is by courtesy of Coca Cola Export Corporation.
